# MORE POSSIBILITIES, MORE SOLUTIONS.

## EXTENSIVE RANGE

ALSTONE offers a wide range of specialized products for various applications. Structural work or finishing project. With us you are at the right place. In addition to standard retaining walls, there is also a range of aesthetically designed retaining walls that give your project a handsome appearance. We also have a large stock, which means that your order can be delivered quickly. Customization is of course also an option.

## STRONG AND QUALITATIVE PRODUCT

Thanks to our 20 years of experience and our own laboratory, we offer you all the guarantees for a quality product. Our products meet strict requirements and standards. Our high-quality concrete with strength class C55/67 is the way to meet these requirements. In addition to a calculated stability, they also meet the environmental standards XC4, XF3, XD3, XA3, XS3, XM2.

## GUIDE TO OUR ELEMENT NAMES

EXAMPLES : **LXXZD**  

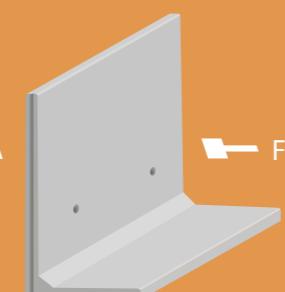

**HSTXXD**  

- ① ELEMENT TYPE DESIGNATION
- ② LENGTH INDICATION (IN METERS) : v = 0,5 K = 1 X = 2 XX = 4 XXX = 6
- ③ INDICATION OF REINFORCEMENT : z = HEAVIER LOAD D = DOUBLE TURNING

## LX(X)(D) - LVX - LK

## HX(D)

The LX(X) / LVX / LK retaining walls are single-retaining on the foot load. The LX(X)D / LVXD / LKD, on the other hand are taxable twice.

The HX(D) retaining walls are the corner solutions that belong with the LX(X)(D) / LK(D) retaining walls.

The HX retaining walls can be loaded on the foot side with an ankle, the HXD retaining walls can be loaded twice.

- Earth barrier
- Separation wall
- Windshield
- Sound screen
- Closing
- Storage
- Manure silo
- Safety tubs around gas tanks
- Flood barrier (if using liner)
- Swimming pond (if using liner)
- Swimming pool (if using liner)
- Finishing options (see page 72)
- ✓ • Finishing options (see page 72)
  - Broomed (default)
  - Hand smooth
  - Silex brown / blue
  - VBIONES
  - Standard wooden coupling lath
  - Plastic coupling lath from bottom to top possible
  - Groove – Groove Connection
  - Option double turning

L(V)X(X): Single-turn foot side, nuisance 1000 kg/m<sup>2</sup>

LK: Single-turning foot side, nuisance 1000 kg/m<sup>2</sup>

LX(X)D: Double-turning, overload 1000 kg/m<sup>2</sup>

LKD: Double barrier, overload 1000 kg/m<sup>2</sup>

Larger nuisance possible on request

LX(X)(D)-LVX-LK: Verkrijgbare lengtes: 1, 2 en 4 meter

HX(D): Verkrijgbare lengte: 2m x 2m

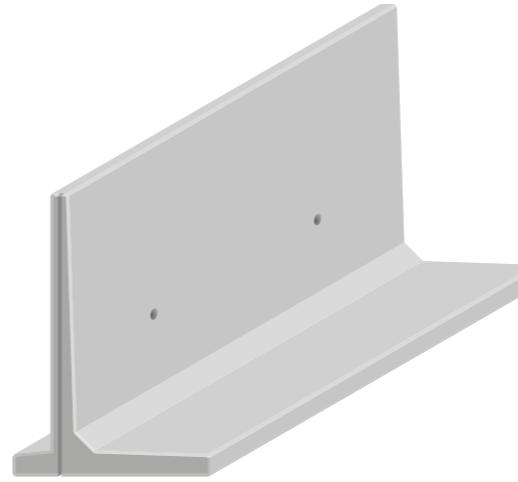

LX(X)(D)-LVX-LK: Verkrijgbare hoogtes: 0,5 tot 7 meter

HX(D): Verkrijgbare hoogtes: 0,5 tot 5 meter

Other technical specifications see page 36,37 and 40

## LX(X)Z(D)

The LX(X)Z retaining walls are single-turning on the foot side to tax. The LX(X)ZD, on the other hand, are doubly reversible tax.

The HXZ(D) retaining walls are the corner solutions that belong with the LX(X)Z(D) retaining walls. The HXZ retaining walls are single-turning load on the foot side, the HXZD retaining walls are taxable twice.

- Earth barrier
- Separation wall
- Windshield
- Sound screen
- Closing
- Storage
- Safety tubs around gas tanks
- Flood barrier (if using liner)
- Swimming pond (if using liner)
- Swimming pool (if using liner)
- Finishing options (see page 72):
  - Broomed (default)
  - Hand smooth
  - Silex brown / blue
  - VBIONES
  - Standard wooden coupling lath
  - Plastic coupling lath from bottom to top possible
  - Groove – Groove Connection
  - Option double turning

LX(X)Z: Single-turning foot side, nuisance 2500 kg/m<sup>2</sup>

LX(X)ZD: Double turning, nuisance foot side:

2500 kg/m<sup>2</sup> and back: 1000 kg/m<sup>2</sup>

HXZ: Single-turning foot side, nuisance 2500 kg/m<sup>2</sup>

HXZD: Double reversing, nuisance foot side:

2500 kg/m<sup>2</sup> and back 1000 kg/m<sup>2</sup>

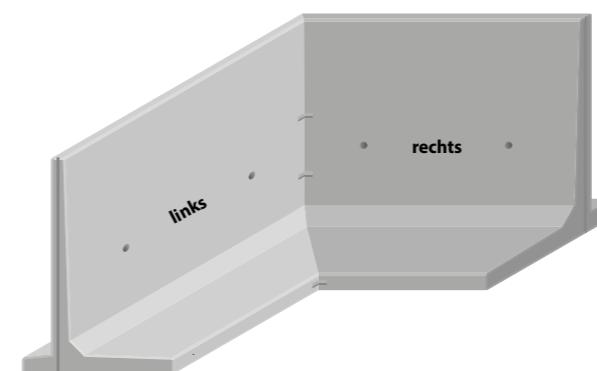

LX(X)Z(D): Available length: 2 or 4 meters

HXZ(D): Available length per part: 2 meters

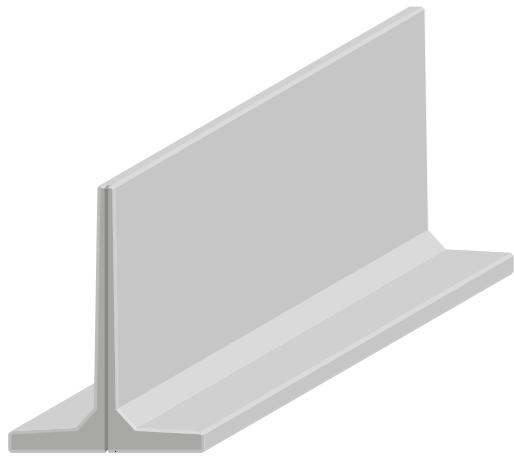

LX(X)Z(D): Available heights: 0.5 to 6 meters

HXZ(D): Available heights: 0.5 to 5 meters

Other technical specifications see page 38 and 41

## TX(X)

The T(X)X are T-retaining walls that load double dubbel could be. The HTX(X) is a corner solution that fits on the TX(X) or the LX(X) is placed and double loaded can become.

- Earth barrier
- Separation wall
- Storage (in combination with LX retaining walls)
- Container park
- Loadable on both sides
- Industrial smooth on both sides
- Groove - Groove Connection
- No lifting hooks - available on request
- Standard wooden coupling lath
- Plastic coupling lath from bottom to top possible

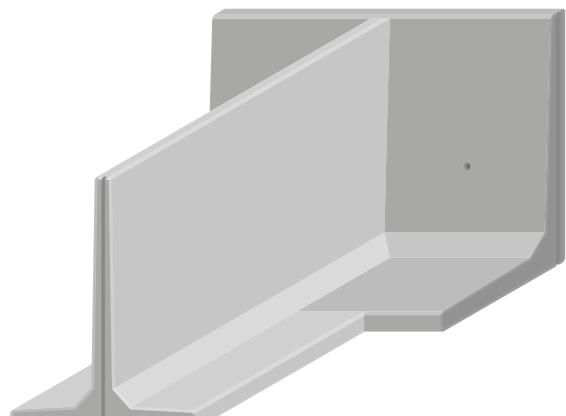

TX(X): Double-turn 1300 kg/m<sup>2</sup>  
HTX(X): Double Turning 1300 kg/m<sup>2</sup>

Larger nuisance possible on request

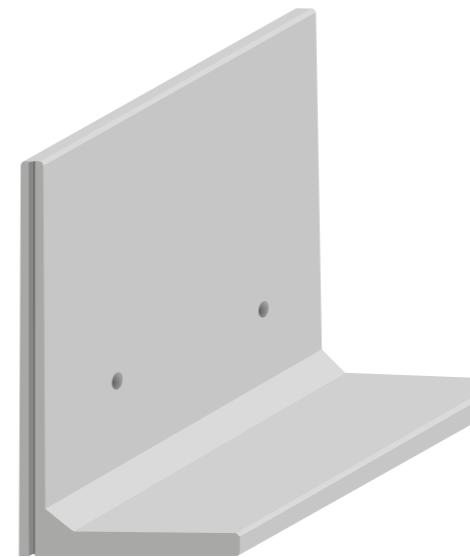

TX(X): Available lengths: 2 and 4 meters  
HTX(X): Available lengths: 2 and 4 meters  
TX(X): Available heights: 1 to 3 meters  
HTX(X): Available heights: 1 to 3 meters

Other technical specifications see page 39 and 42

## HTX(X)

## LGX(X)

The LGX(X) are retaining walls that are single-turning at the foot side can be loaded. The HGX retaining walls are the corner solutions that belong to the LGX(X) retaining walls and can be loaded on the foot side by turning.

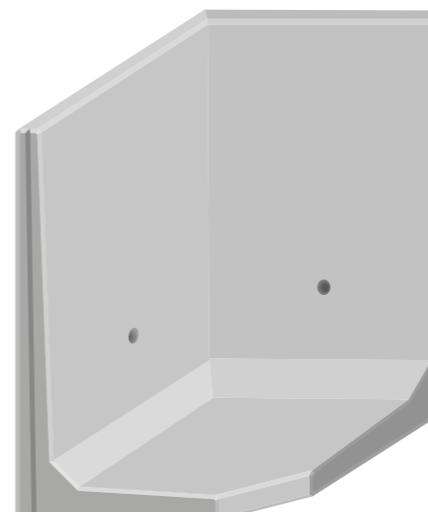

- Earth barrier
- Lost formwork
- Infiltration Cellars
- Separation wall
- Windshield
- Sound screen
- Flood barrier (if using liner)
- Closing
- Buffer basins
- Safety shells
- Industrial smooth on both sides
- Easy to install
- Corners one piece
- Groove – Groove Connection
- Standard wooden coupling lath
- Plastic coupling lath from bottom to top possible

LGX(X): Single-turning foot side, nuisance 1000 kg/m<sup>2</sup>  
HGX: Single-turning foot side, nuisance 1000 kg/m<sup>2</sup>

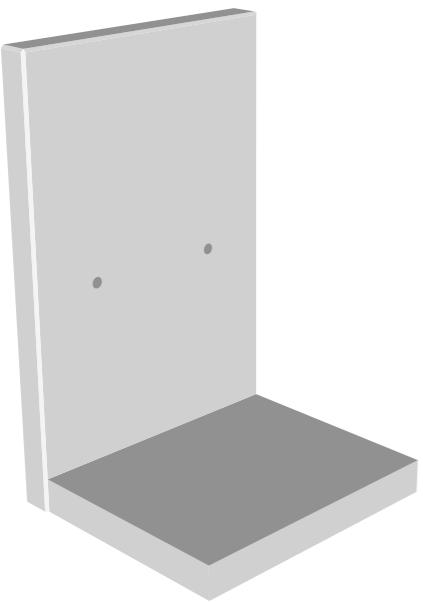

LGX(X): Available lengths: 2 and 4 meters  
HGX: Available lengths: 1 x 1 and 1.5 x 1.5 meters  
LGX(X): Available heights: 0.5 to 2.5 meters  
HGX: Available heights: 0.5 to 2.5 meters

Other technical specifications see page 44 and 45

## HGX

## AL(K)(X)(Z)

The AL(K)(X) are retaining walls in smooth exposed concrete the back. These retaining walls are single-turning on the foot load.

The AH(K)(X) retaining walls are the corner solutions that belong to the AL(K)(X) retaining walls and are load on the foot side.

- Earth barrier
- Separation wall
- Parking lots
- Unloading and loading quay
- Terrace construction

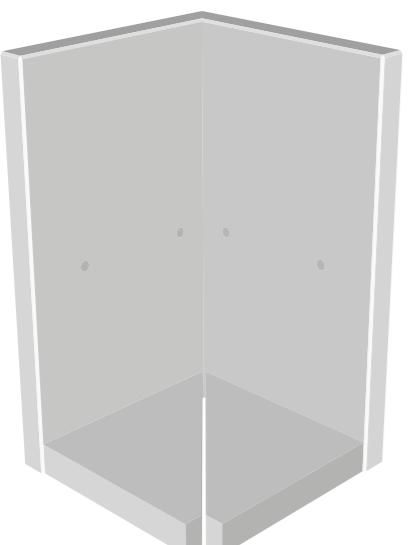

- ✓
- Industrial smooth finish on the back
- Hand-smooth finish foot side
- Equal wall thickness up to a height of 1.55 meters
- Structured concrete possible on the back

**kg** AL(K)(X): Single-closing foot side, nuisance 1670 kg/m<sup>2</sup>  
AL(K)(X)Z: Single-turning foot side, nuisance 3333 kg/m<sup>2</sup>  
AH(K)(X): Single-turn foot side, nuisance 1670 kg/m<sup>2</sup>

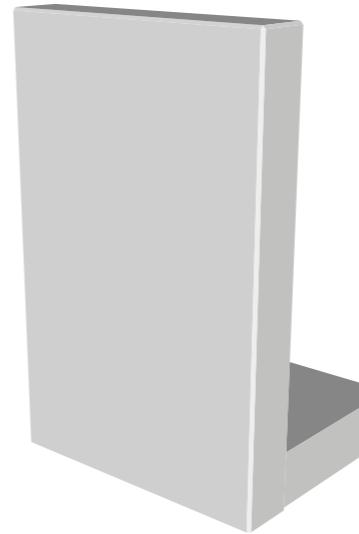

**△** AL(K)(X)(Z): Available lengths: 1 and 2 meters  
AH(K)(X): Available lengths: 1 and 2 meters  
AL(K)(X)(Z): Available heights: 0.4 to 4.55 meters  
AH(K)(X): Available heights: 0.4 to 4.55 meters

Other technical specifications see page 46 and 47

## AH(K)(X)

## OAL(K)(X)(D)

The OAL(K)(X) retaining walls are single-retaining on the foot load. The OAL(K)(X)D, on the other hand, are double taxation.

The OAHX(D) retaining walls are the corner solutions that belong to the OAL(K)(X)(D) retaining walls. The OAHX retaining walls can be loaded single-sided on the foot side, the OAHXD retaining walls can be loaded twice.

- Earth barrier
- Separation wall
- Parking lots
- Unloading and loading quay
- Terrace construction

- ✓
- Industrial smooth finish on the back
- Hand-smooth finish foot side
- Equal wall thicknesses of 20, 25 or 30 cm
- Turnbuckle can be built in on request
- Option double turning
- Structured concrete possible on the back

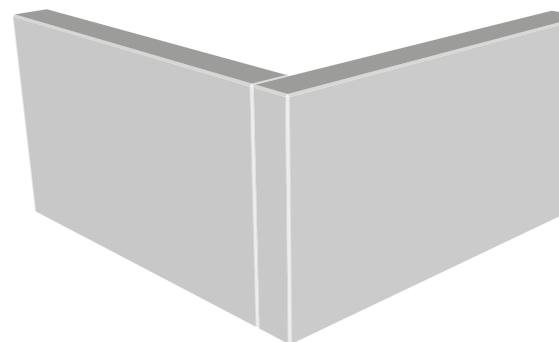

**kg** OAL(K)(X): Single-turn foot side, nuisance 1000 kg/m<sup>2</sup>  
OAL(K)(X)D: Double turning, nuisance 1000 kg/m<sup>2</sup>  
OAHX: Single-turning foot side, nuisance 1000 kg/m<sup>2</sup>  
OAHXD: Double barrier, nuisance 1000 kg/m<sup>2</sup>

Larger nuisance possible on request

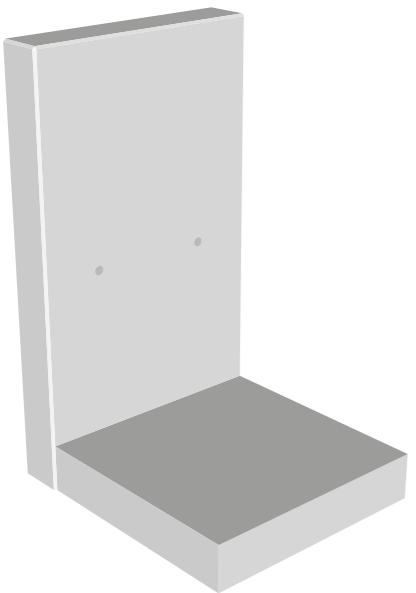

**△** OAL(K)(X)(D): Verkrijgbare lengtes: 1 en 2 meter  
OAHX(D): Verkrijgbare lengtes : 2 x 2 meter  
OAL(K)(X)(D): Verkrijgbare hoogtes: 1,05 tot 4,55 meter  
OAHX(D): Verkrijgbare hoogtes: 1,05 tot 4,55 meter

Other technical specifications see page 48 and 49

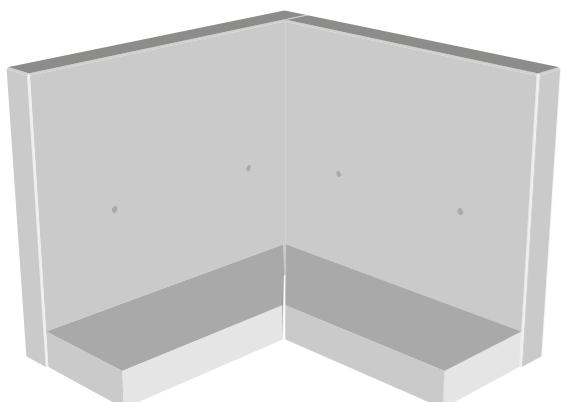

## OAHX(D)

## OL(K)(X)(D)

## OHX(D)

The OL(K)(X) retaining walls are single-retaining on the foot load. The OL(K)(X)(D), on the other hand, are double taxation.

The OHX(D) retaining walls are the corner solutions that belong to the OL(K)(X)(D) retaining walls. The OHX retaining walls can be loaded on the foot side by turning, the OHXD retaining walls can be loaded twice.

- Earth barrier
- Separation wall
- Parking lots
- Unloading and loading dock
- Terrace construction
- Hall construction
- Garage building

- Industrial smooth finish foot side
- Finishing options on the back (see page 72)
- Broomed
- Hand smooth
- Equal wall thicknesses of 20, 25 or 30 cm
- Foot length flexible
- Turnbuckle can be built in on request
- Option double turning
- Structured concrete possible on foot side

OL(K)(X): Single-turn foot side, nuisance 1000 kg/m<sup>2</sup>  
OL(K)(X)(D): Double-turning nuisance 1000 kg/m<sup>2</sup>  
OHX: Single-turning foot side, nuisance 1000 kg/m<sup>2</sup>  
OHXD: Double barrier, nuisance 1000 kg/m<sup>2</sup>

Larger nuisance possible on request

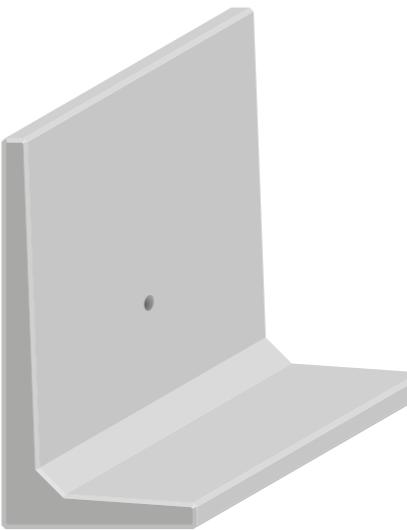

OL(K)(X)(D): Available lengths: 1 and 2 meters  
OHX(D): Available length : 2 x 2 meters  
OL(K)(X)(D): Available heights: 1.05 to 4.55 meters  
OHX(D): Available heights: 1.05 to 4.55 meters

Other technical specifications see page 50 and 51

## LKW(D) - LKWZ(D)

The LKW(Z) retaining walls are single-retaining on the foot side to tax. The LKW(Z)D retaining walls, on the other hand, are double taxation.

The HKW(Z)D retaining walls are the corner solutions that belong to the LKW(Z)D retaining walls. The HKW(Z) retaining walls can be loaded on the foot side by turning while the HKW(Z)D retaining walls can be loaded double-sided

- Earth barrier
- Separation wall
- Infiltration Cellar
- Lost formwork
- Parking lots
- Unloading and loading quay
- Terrace construction

- Industrial smooth on both sides
- Cold connection
- Corners one piece
- Option double turning

LKW: Single-turning foot side, nuisance 1000 kg/m<sup>2</sup>  
LKWD: Double barrier, overload 1000 kg/m<sup>2</sup>  
LKWZ: Single-turning foot side, nuisance 2500 kg/m<sup>2</sup>  
LKWZD: Double barrier, nuisance foot side 2500 kg/m<sup>2</sup> and back 1000 kg/m<sup>2</sup>

HKW: Single retaining foot side, nuisance 1000 kg/m<sup>2</sup>

HKWD: Double barrier, overload 1000 kg/m<sup>2</sup>

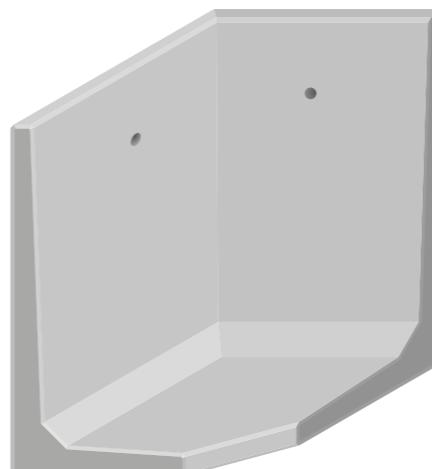

HKWZ: Single-turning foot side, nuisance 2500 kg/m<sup>2</sup>

HKWZD: Double barrier, nuisance foot side 2500 kg/m<sup>2</sup> and back 1000 kg/m<sup>2</sup>

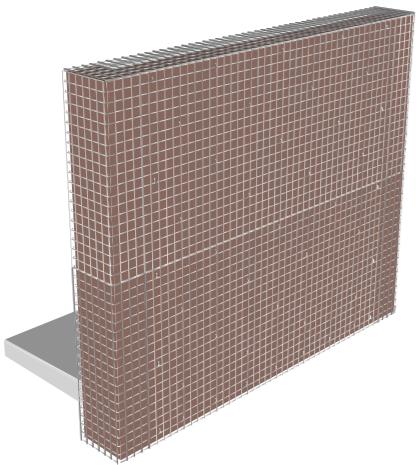

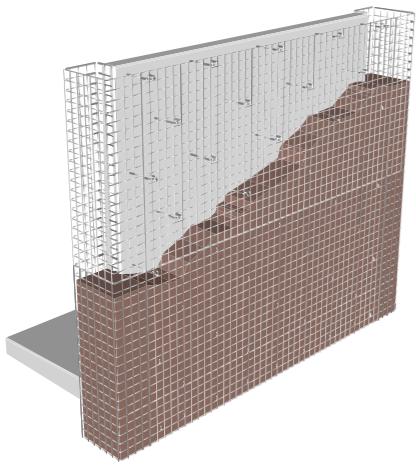

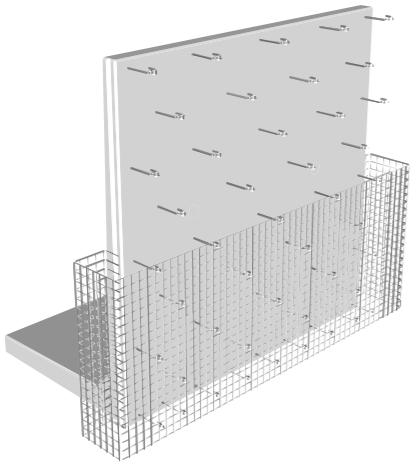

LKW(Z)D: Available length: 1 meter  
HKW(Z)D: Available lengths: 1 x 1 to 1 x 2.5 meters  
LKW(Z)D: Available heights: 0.5 to 4.5 meters  
HKW(Z)D: Available heights: 0.75 to 4.5 meters

## HKW(D) - HKWZ(D)

Other technical specifications see page 52 and 53

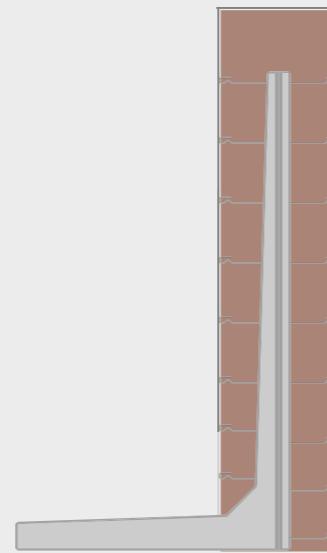

## UNIQUE, INNOVATIVE & MULTIFUNCTIONAL

VBIONEN are prefabricated concrete walls that in addition to their functionality, also excel in terms of aesthetics. By mounting nets on the collapsed flex anchors, a gap is created that can be filled with a rock of your choice. The base of our VBIONEN are our LX retaining walls.

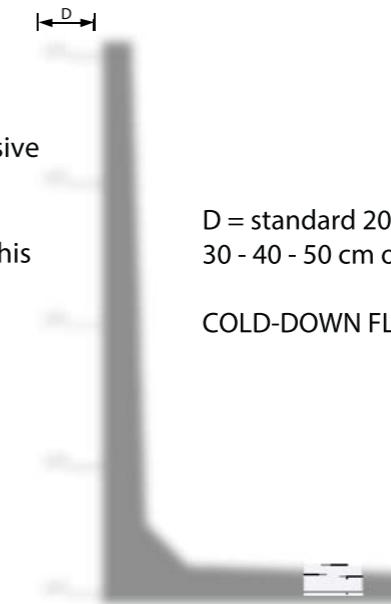

- Retaining structure
- Separation wall
- Gardens
  
- ✓ Aesthetic
- Sound-absorbing in combination with Vulkapor
- Various infill rocks available
- Maintenance friendly
- Can be used creatively in various environments
- Possibility to provide this finish on both sides
- Nets also available in stainless steel
- Also available on the corner variants
  
- kg See LX(X)(D) and LX(X)(Z)(D) on pages 6-7
  
- 📐 Available lengths: 1 to 4 meters  
Available heights: 0.5 to 7 meters

## BEZINAL®2000 COATING

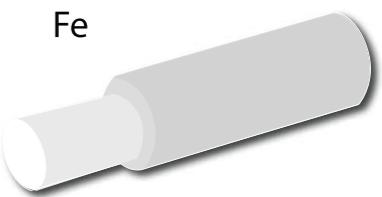

Both the concreted steel flex anchors and the nets are treated as standard with a Bezinal® 2000 coating (90% zinc - 10% aluminium). This advanced anti-corrosion treatment complies with the standards DIN SS 50021 / ASTM B117 / ISO 9227 and guarantees a service life that is five times higher than standard galvanization. The welded tips and clipped ends also enjoy this one protective anti-corrosion treatment.

The VBIONEN® with a 20, 30, 40 or 50 cm thick filling of lava rock (Vulkapor®) were subjected to an extensive acoustic test subject (according to the standard DIN EN 1793). from this showed that the VBIONEN® a sound absorption class Achieved A3, what does it say for 'highly absorbent' with a sound recording of more than 90% and even up to 100% for some frequencies'.

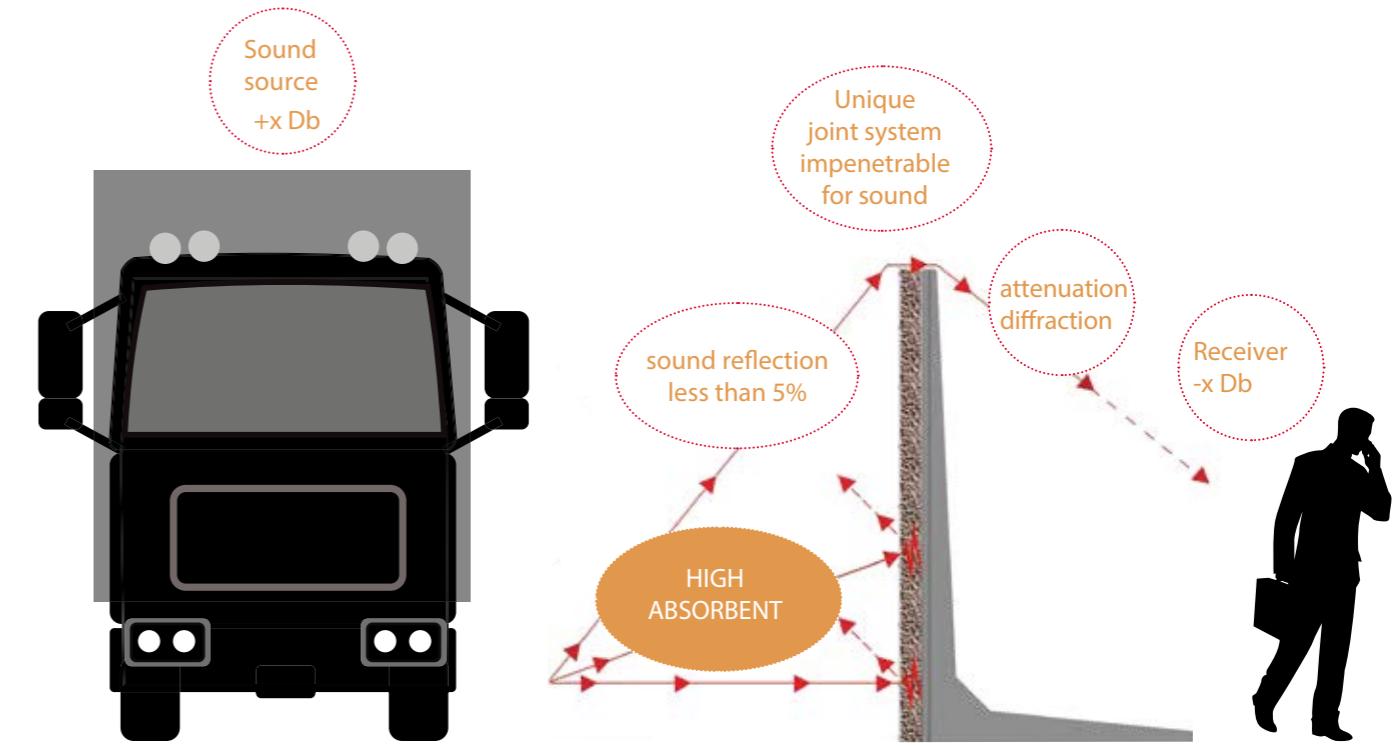

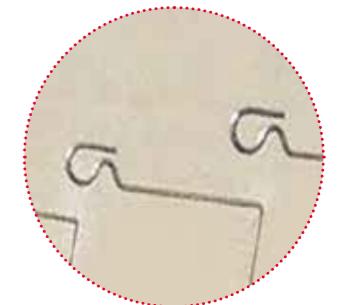

D = standard 20 cm  
30 - 40 - 50 cm on request

# STRUCTURAL CONCRETE

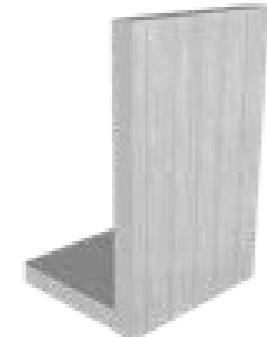

Canyon

Himalaya

Pacific

Amazon

ALSTONE adds a creative touch to the expanded range of functional retaining walls. From now it is also possible to choose a structure for your retaining walls. As a result, the retaining walls real design elements. Form an extra contrast or they integrate seamlessly into their environment, the use of Structured concrete is certainly an added value for every project.

The structures are applicable to the AL(K)(X), OL(K)(X)(D) and OAL(K)(X)(D) products.

- Earth barrier
- Separation wall
- Gardens
- ✓
- Aesthetic
- 4 basic structures available from 0.4m to 2.55m at an advantageous rate
- Various structures available on request
- View in line with surroundings
- Also available on the corner variants

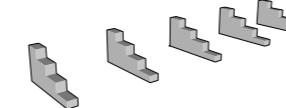

See AL(K)(X) / OAL(K)(X)(D) / OL(K)(X)(D)

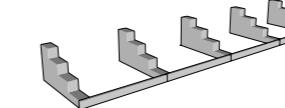

Available lengths: 1 or 2 meters  
Available heights: 0.4 to 2.55 meters standard  
2.8 to 4.55 meters on request

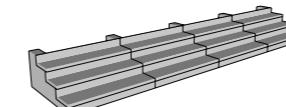

# AMPHITHEATER / STAND

Tube cold

## OVERFLOW

Overflow type 1

Overflow type 2

Onze overstorten worden geplaatst als grondkering waar de overgang wordt gemaakt naar een waterloop of gracht. Deze overstorten worden op maat gemaakt zodat ze in werking treden bij het voor de klant cruciale punt van de waterhoogte en zorgen voor een gecontroleerde waterafvoer.

- Water throughput
  - Earth barrier
  - Weir
- ✓
- Fast production
  - Fully customized and according to the customer's wishes
  - Various types of recess possible

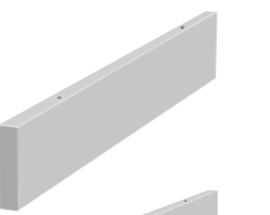

Nuisance on request.

Available lengths: up to 9 meters long  
Available heights: on request  
Available thicknesses: 10, 12, 20, 25 or 30 cm

## PLINTEN

Plinth type 1

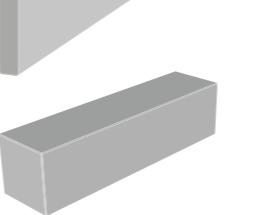

Plinth type 2

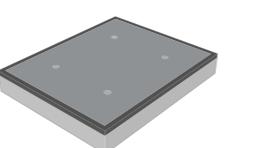

Plinth type 3

Plinth type 4

Plinth type 5  
bench

Plinth type 6  
Culvert plate

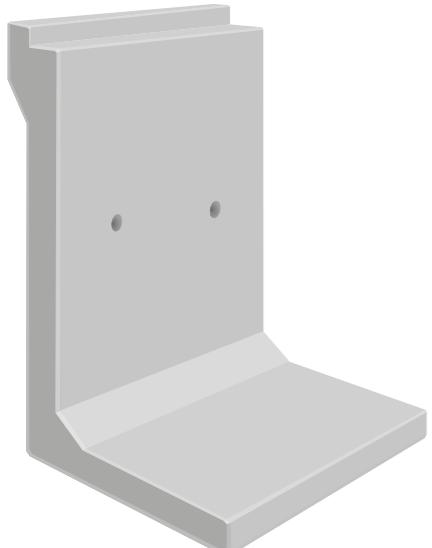

ALSTONE skirting boards are completely custom-made. The skirting boards always have a standard finish with one side industrial smooth concrete and the other side hand-smooth concrete. A finish in blue is available on request or brown silex possible.

- Earth barrier
  - Facade finishaf
  - Foundation wall
  - Partition wall
  - Flower box
  - Bench
  - Hall construction
- ✓
- Fast production
  - Fully customized and according to the customer's wishes

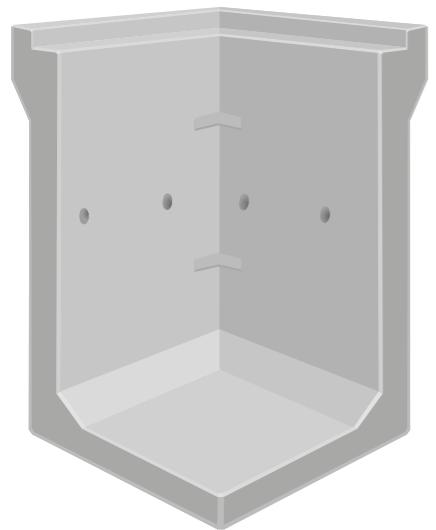

Available dimensions:  
• Lengths from 0.1m to 9m  
• Heights from 0.1m to 4m  
• Thicknesses from 10 cm to ... cm

## PLATFORM BOARD

M95/96

M95/96 hoek

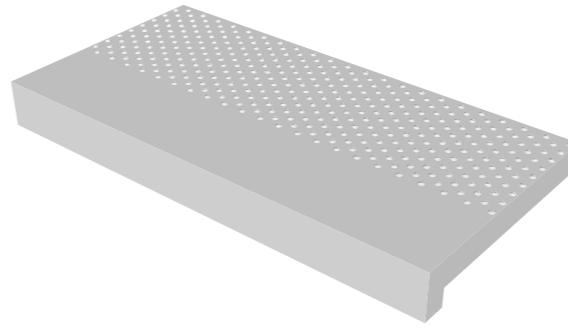

ALSTONE produces platform edges that be made specifically according to the prescribed specifications per region and/or country.

The platform edges are available both as an L-element and available as a corner element.

- Station  
• Tram stop
- ✓ Always tailor-made according to regulations per region and/or country
  - Cold connection
  - Complete package available
- kg Specifications according to regulations per region and/or country
- Dimensions according to regulations per region and/or country

Other technical specifications see page 54

## PLATFORM EDGE-NOSE

The platform edges are offered in 2 different types. A platform edge with a nose or without a nose.

The width of the platform edge is always 1m. The stud zone also has a fixed size and is divided into 0.4m industrial smooth and 0.6m stud zone. The finish on the underside of the platform edge is hand-smooth.

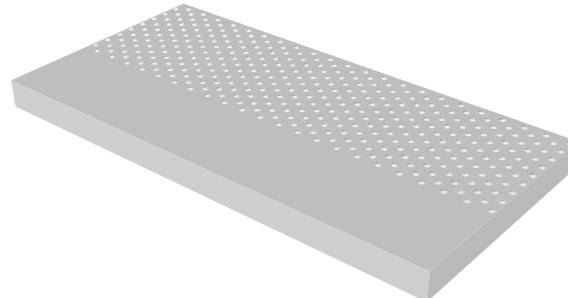

The standard length of the platform edge is 2m. The length is not dimensionally stable and offers the possibility of customization if the length is less than 2m.

- Station  
• Tram stop
- ✓ The length and thickness of the platform edge are variable
  - Available with and without nose
  - Shatter-free head

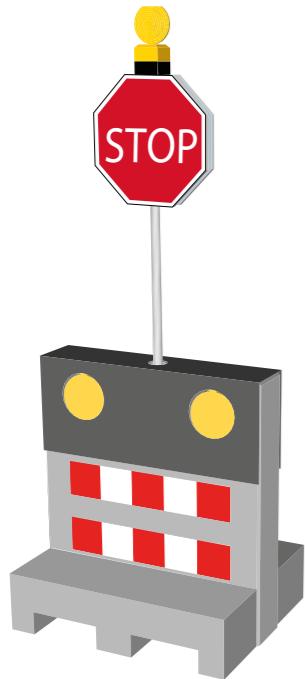

Verkrijgbare lengtes: standaard 2 meter of minder

Other technical specifications see page 55

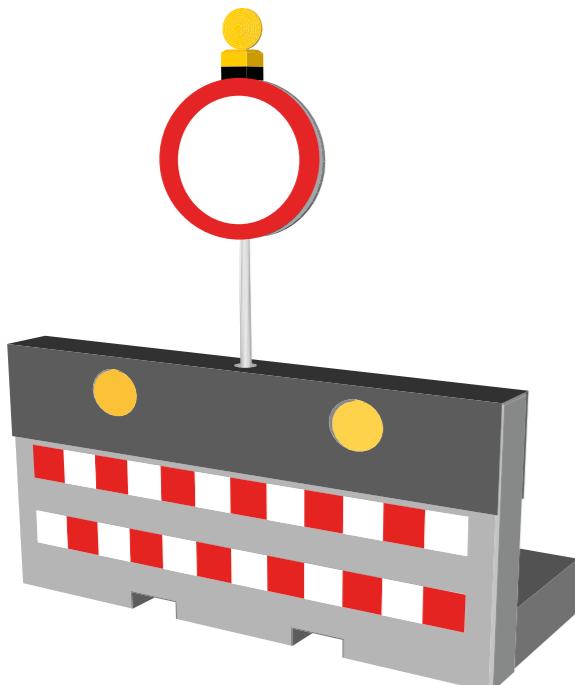

## PLATFORM EDGE-FLAT

## VBK

## VBG

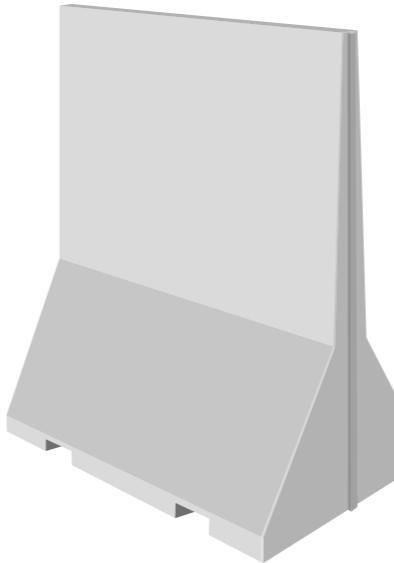

The VBG and VBG are multifunctional and designed to create a safe seal as well as a safe passageway for emergency services. Temporary event closures are also possible. Despite its robust appearance makes it convenient to move with a pallet truck to provide a quick passage to emergency services if necessary. The VBG and VBG are available with a simple intervention in series. Various traffic signs, flashing lights can be attached to the elements and add reflector strips.

- Festivals
- Sporting events
- Parades & parades
- ✓ Secure closure
- Easy to move
- Available with or without signage package

VBK: Available length: 1 meter  
VBG: Available length: 2 meters  
VBK: Available height: 1.1 meters  
VBG: Available height: 1.1 meters

Overige technische specificaties zie pag 56

## AX

The AX and AXZ are elements that can be reversed tax. They lend themselves to placing on an existing concrete floor and are easy to move with a forklift thanks to the recesses in the base. The AX and AXZ are more stable alternatives to Lego blocks.

- Indoor en outdoor opslag van zand en grind
- Indoor en outdoor opslag van aardappelen, bieten, ...
- Containerpark
- Recyclage

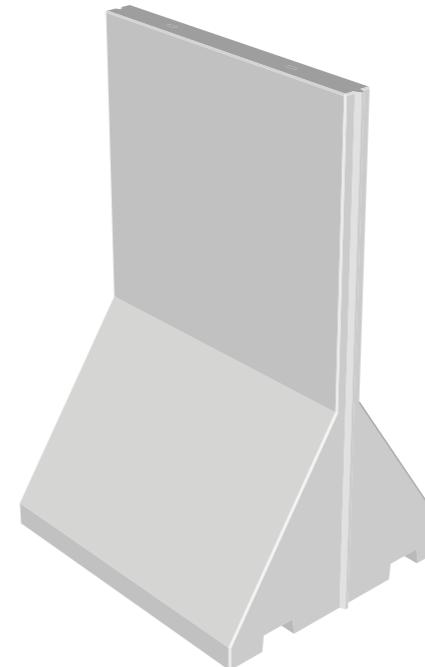

- ✓ Uitsparing voor verplaatsing met heftruck
- Afrolhelling op voet zodat geen product op de voet blijft liggen
- Tand- en groefverbinding
- Stabieler dan legoblokken dankzij massieve voet

kg AX/AXZ: Double-retaining, max. addition (S.G.) 1800 kg/m<sup>3</sup>

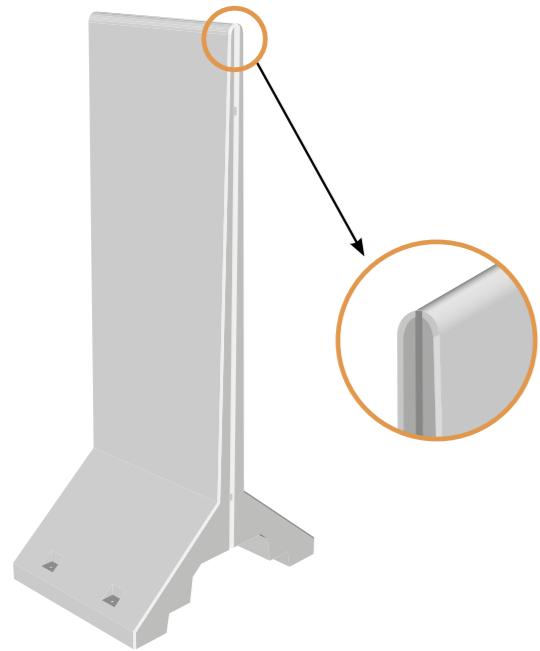

AX/AXZ: Available length: 2 meters  
AX: Available heights: 1.5 and 2 meters  
AXZ: Available heights: 2 to 4 meters

Overige technische specificaties zie pag 57

## AXZ

## GKT

The GKT and HKT are T-elements that are reversible tax are what makes it extremely suitable for storage.

These elements are required to be anchored in the soil with wedge bolts so that the wall cannot slide away. These bolts are recessed into the wall so that they do not hinder.

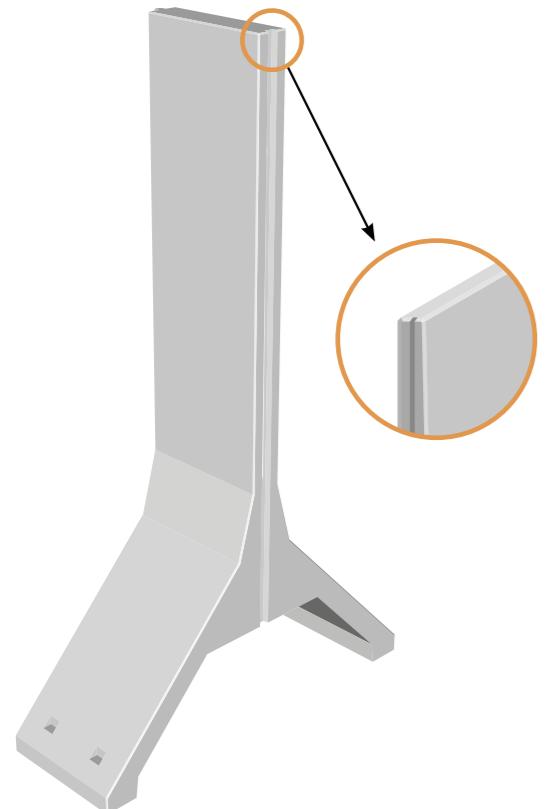

- Indoor and outdoor storage of sand and gravel
- Container park
- Recycling
  
- ✓ • Easy to move with a forklift
- Rolling ramp on foot so that no product remains on the foot lie
- Round head (GKT)
- Flat head (HKT)
- Tongue and groove connection

kg GKT: Double-retaining, max. replenishment (S.G.) 850 Kg/m<sup>3</sup>  
HKT: Double-retaining, max. addition (S.G.) 1500 Kg/m<sup>3</sup>

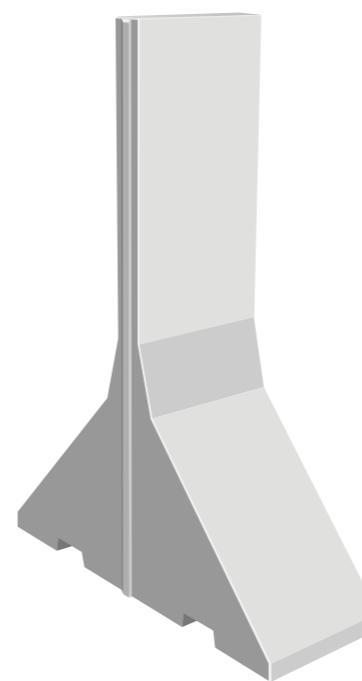

triangle GKT: Available length: 1 meter  
HKT: Available length: 1 meter  
GKT: Available heights: 2 to 4 meters  
HKT: Available heights: 3 to 6 meters

Overige technische specificaties zie page 58

## HKT

## HKZT

The HKZT are T-elements that can be turned double tax.

The HKZH are the corner elements that belong to the HKZT elements.

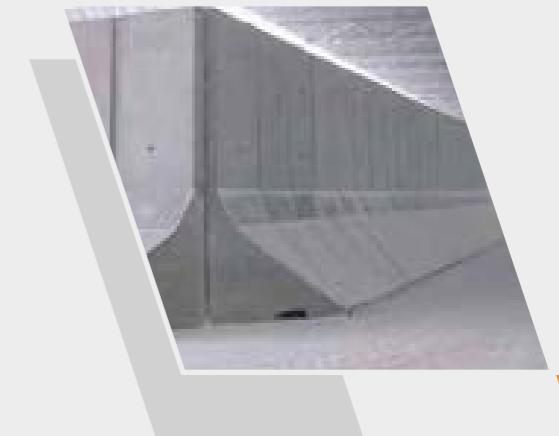

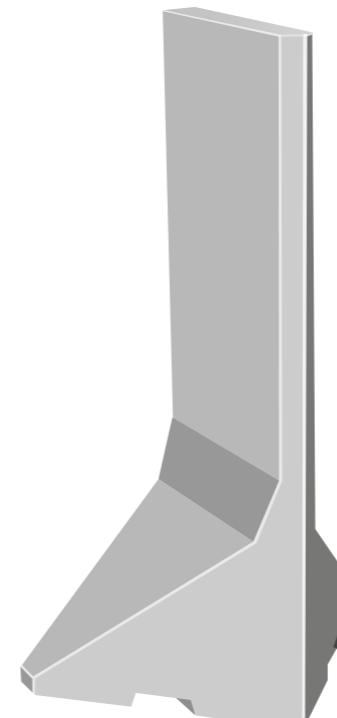

- Indoor and outdoor storage of sand and gravel
- Container park
- Recycling
  
- ✓ • Easy to move with a forklift
- Rolling ramp on foot so that no product remains on the foot lie
- Available heights up to 6m
- Tongue and groove connection
- No anchoring required when placed on a concrete floor

## HKZH

## STX(X)(X)(V)(D)

## TSTXX

The STX(X)(X)(V) retaining walls are single-retaining on the foot load. The STX(X)(X)(V)(D), on the other hand, is double taxation. These retaining walls can an axle load of  $\pm 10$  tons. Nuisances of 15 tons and 20 tons are available on request.

The TSTXX are retaining walls that connect to the HTSTXX retaining walls and can be loaded twice.

Both the upright wall and the bottom plate have a groove for mounting sealing devices. This is to guarantee a complete seal.

- Corn and grass silos
- Earth barrier
- Recycling Applications

- ✓ Standard 10 tons of nuisance
- Industrial smooth on both sides
- Flat head
- Groove – Groove Connection
- Equal head thickness – 12 cm
- Possibility of additional mounting eg. closure, rail, roof
- No lifting hooks - available on request
- Beveling capability
- Wooden or plastic closure from bottom to top and recess in foot for swelling paste / wooden or plastic closure
- Sloping foot to drain corn juices
- Option double turning

**kg** STX(X)(X)(V): Single-turn foot side, overload 2500 kg/m<sup>2</sup>  
STX(X)(X)(V)(D): Double turning, nuisance foot side 2500 kg/m<sup>2</sup> and back 1000 kg/m<sup>2</sup>

TSTXX: Double reversing, overload 2500 kg/m<sup>2</sup>

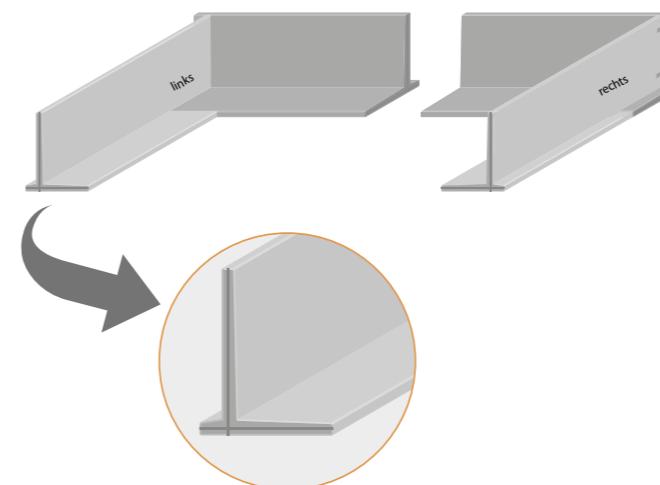

Larger nuisance possible on request

**△** STX(X)(X)(V)(D): Available lengths: 2.5 to 6 meters  
TSTXX: Available length: 4 meters  
STX(X)(X)(V)(D): Available heights: 1 to 3 meters  
TSTXX: Available heights: 1.5 to 2.5 meters

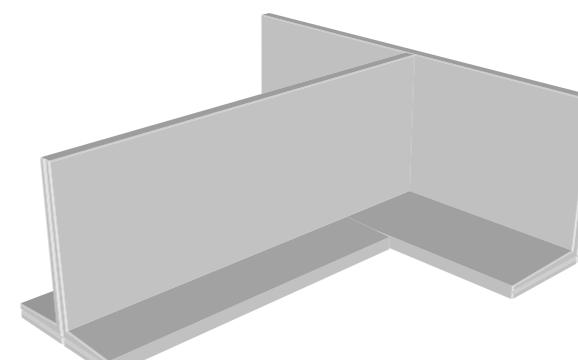

Other technical specifications see page 60

## HSTXX(X)(D)

## HTSTXX

The H(T)STXX(X)(D) retaining walls are the corner solutions that belong to the STX(X)(X)(V)(D) and the TSTXX retaining walls. The HSTXX(X) retaining walls are single-turning on the footload. The H(T)STXX(X)(D), on the other hand, is double taxation.

- Corn and grass silos
- Earth barrier
- Recycling Applications
- ✓ Standard 10 tons of nuisance
- Industrial smooth on both sides
- Flat head
- Groove – Groove Connection
- Equal head thickness – 12 cm
- Possibility of additional mounting eg. closing, rail, canopy
- No lifting hooks - available on request
- Beveling capability
- Wooden or plastic closure from bottom to top and recess in foot for swelling paste / wooden or plastic closure
- Sloping foot to drain corn juices
- Option double turning

**kg** HSTXX(X): Single-turn foot side, overload 2500 kg/m<sup>2</sup>  
HSTXX(X)(D): Double turning, nuisance foot side 2500 kg/m<sup>2</sup> and back 1000 kg/m<sup>2</sup>  
HTSTXX: Double reversing, overload 2500 kg/m<sup>2</sup>

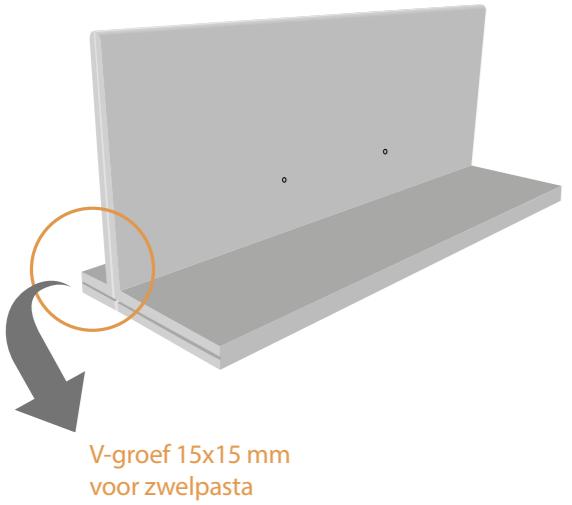

Larger nuisance possible on request

**△** HSTXX(X)(D): Available lengths: 4 and 6 meters  
HTSTXX: Available length: 4 meters  
HSTXX(X)(D): Available heights: 1 to 2.5 meters  
HTSTXX: Available heights: 1.5 to 2.5 meters

Other technical specifications see page 61

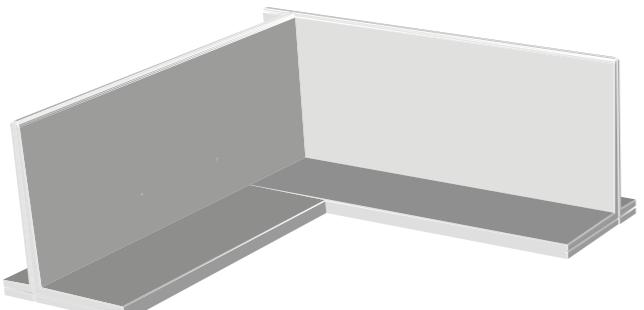

## SLGXX

V-groef 15x15 mm voor zwelpasta

## HSLGXX

Other technical specifications see page 62

The SLGXX retaining walls are single-turning on the foot side tax. These retaining walls can withstand an axle load of  $\pm 10$  tons. The HSLGXX walls are the corner solutions that belong with the SLGXX retaining walls.

Both the upright wall and the bottom plate have a groove for mounting sealing devices. This is to guarantee a complete seal.

- Corn and grass silos
- Earth barrier
- Recycling Applications

- Standard 10 tons of nuisance
- Industrial smooth on both sides
- Round head
- Groove – Groove Connection
- Wooden or plastic closure from bottom to top and recess in foot for swelling paste / wooden or plastic closure
- Sloping foot to drain corn juices

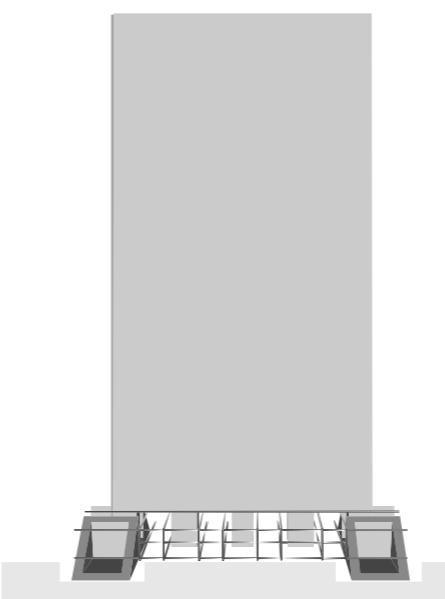

SLGXX: Single-turning foot side, nuisance 2500 kg/m<sup>2</sup>  
HSLGXX: Single-turning foot side, nuisance 2500 kg/m<sup>2</sup>

SLGXX: Available length: 4 meters  
HSLGXX: Available length: 4 meters  
SLGXX: Available heights: 1.5 and 2 meters  
HSLGXX: Available heights: 1.5 and 2 meters

## SLS

The SLS are trench silo panels that have a double load could be. These panels can collapse themselves turn into.

It is possible to change the start and end panels of the chamfering the trench silo. By default, this is provided for 1 x 1 meters.

- Corn and grass silos
- Grain storage, potatoes, beets, etc...

- Standard 10 tons of nuisance
- Budget friendly
- Silo expandable to any side
- On request provision of clamping straps
- Placement kit available on request
- Adjusting block system facilitates mounting (fewer struts)
- Various coupling systems :
  - T and - groove in concrete
  - Groove - groove for grout
  - Groove - groove for coupling lath in wood or plastic

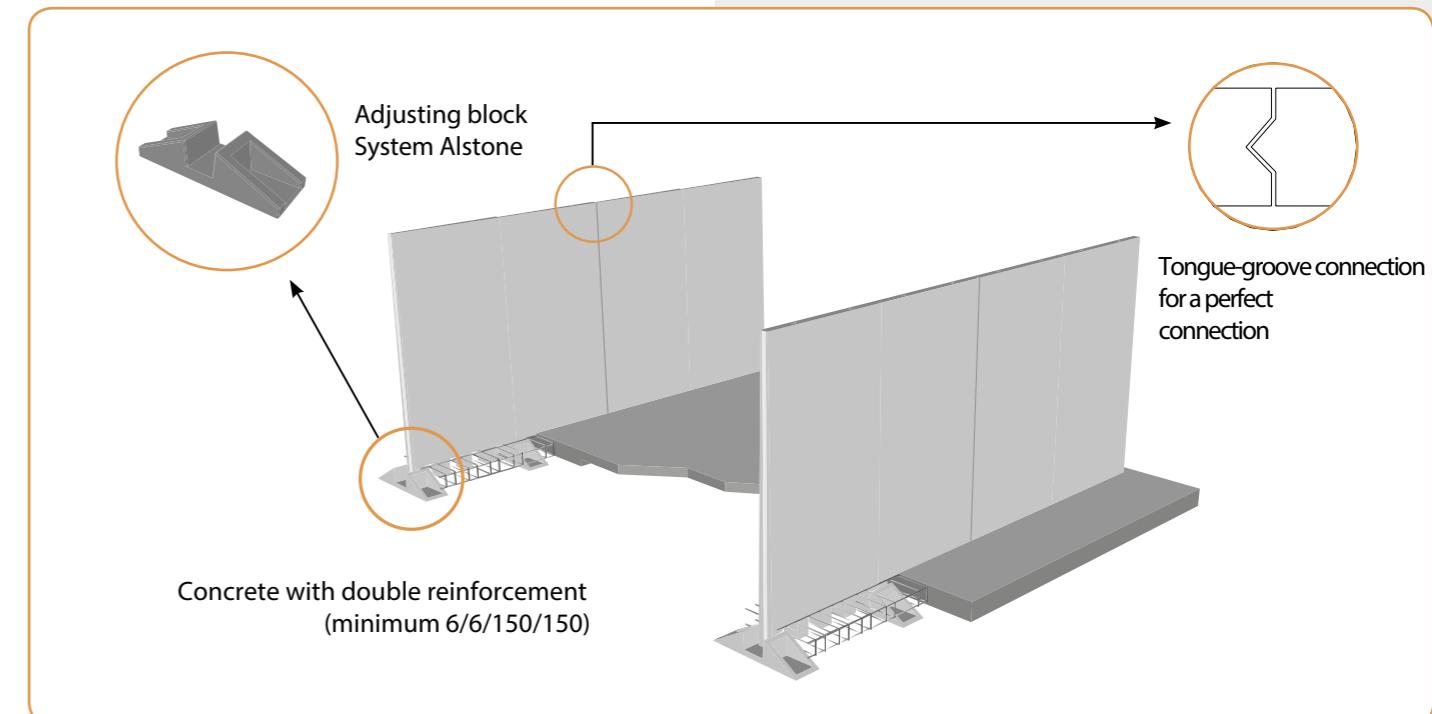

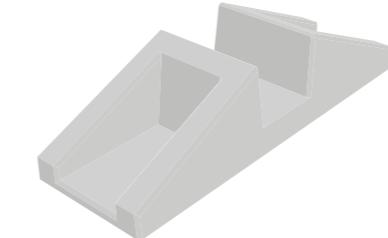

SLS: Double barrier, nuisance 1300 kg/m<sup>2</sup>

SLS: Available lengths: 2.4 and 3 meters  
SLS: Available heights: 1.45 to 2.75 meters

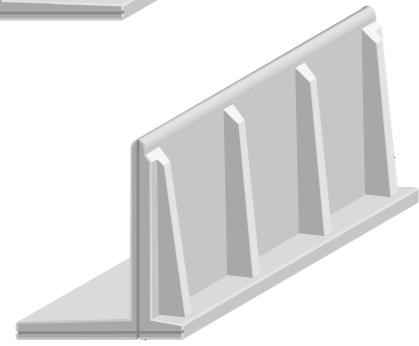

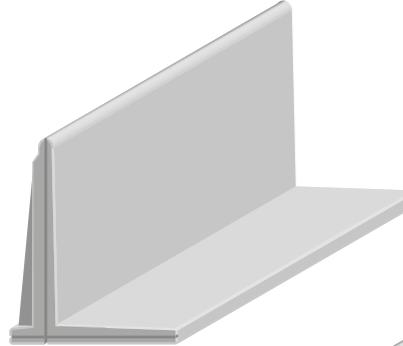

Other technical specifications see page 43

## VBLX(X)(V)

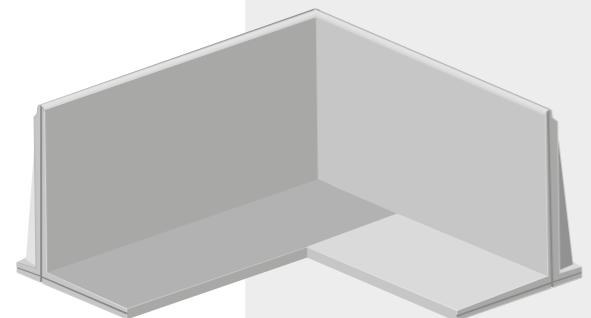

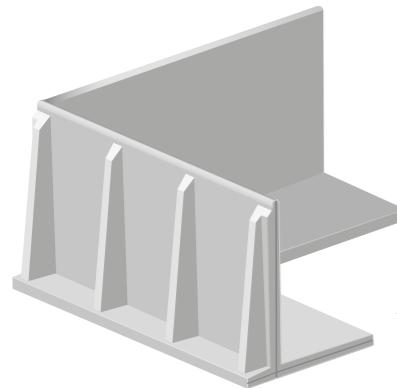

AXLE LOAD 15t

## VBHLXX

AXLE LOAD 15t

The VBLX(X)(V) retaining walls are single-retaining on the foot load. These retaining walls can bear an axle load to  $\pm 15$  tons.

The VBHLXX walls are corner solutions that belong to the VBLX(X)(v) retaining walls and can be loaded single-turning

- Corn and grass silos

- ✓ Standard 15 tons axle load
  - Groove – Groove Connection
  - Round head
  - Wooden or plastic closure from bottom to top and recess in foot for swelling paste / wooden or plastic closure
  - Sloping foot to drain corn juices

kg VBLX(X)(V): Single-turn foot side, nuisance  $3500 \text{ kg/m}^2$   
VBHLXX: Single-turning foot side, nuisance  $3500 \text{ kg/m}^2$

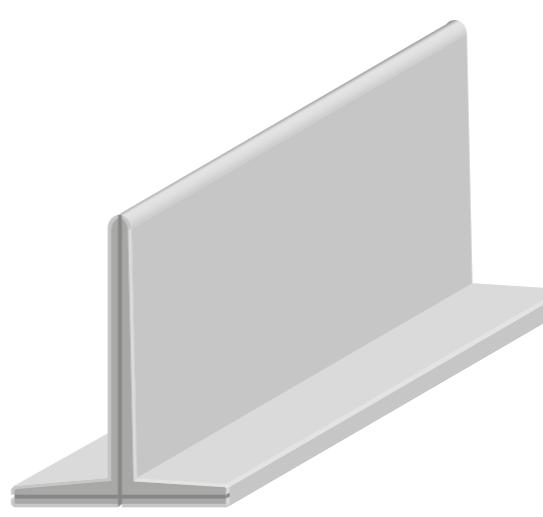

Available lengths: 2.5 to 4 meters  
VBHLXX:  
Available length: 4 meters  
VBLX(X)(V):  
Available heights: 1.5 to 3 meters  
VBHLXX:  
Available heights: 1.5 to 2.5 meters

Other technical specifications see page 63 and 64

## VBTX(X)(V)

AXLE LOAD 15t

The VBTX(X)(V) are retaining walls that have a double load could be. This retaining wall is placed against the VBHXX posted.

The VBHTXX is a T-retaining wall that can be mounted on both the VBLX(X)(V) as can be placed against the VBTX(X)(V).

- Corn and grass silos

- ✓ Standard 15 tons axle load
  - Groove – Groove Connection
  - Round head
  - No lifting hooks
  - Wooden or plastic closure from bottom to top and recess in foot for swelling paste
  - Sloping foot to drain corn juices
  - Loadable on both sides

kg VBTX(X)(V): Double-turning, nuisance  $3500 \text{ kg/m}^2$   
VBHTXX: Double barrier, nuisance  $3500 \text{ kg/m}^2$

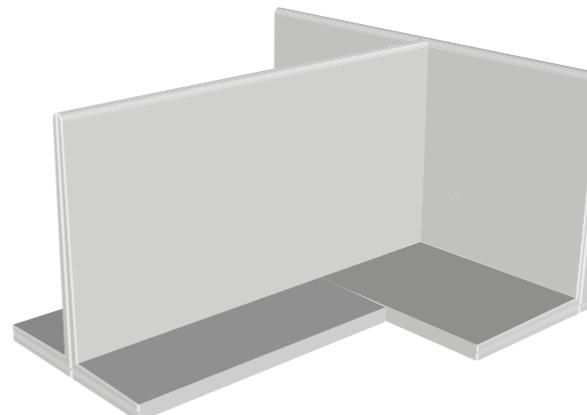

Available lengths: 2.5 to 4 meters  
VBHTXX:  
Available length: 3.88 meters  
VBTX(X)(V):  
Available heights: 1.5 to 3 meters  
VBHTXX:  
Available heights: 1.5 to 2.5 meters

Other technical specifications see page 64 and 65

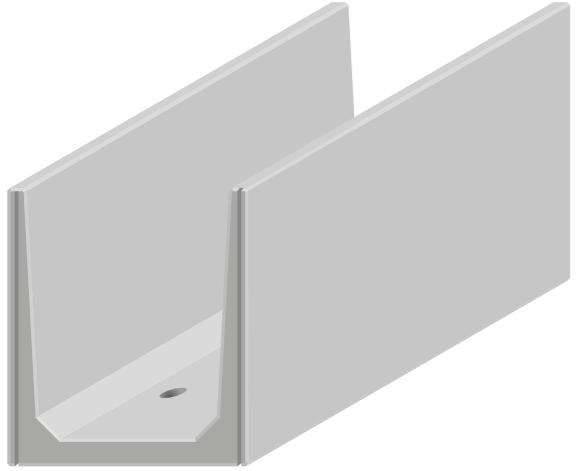

## VBHTXX

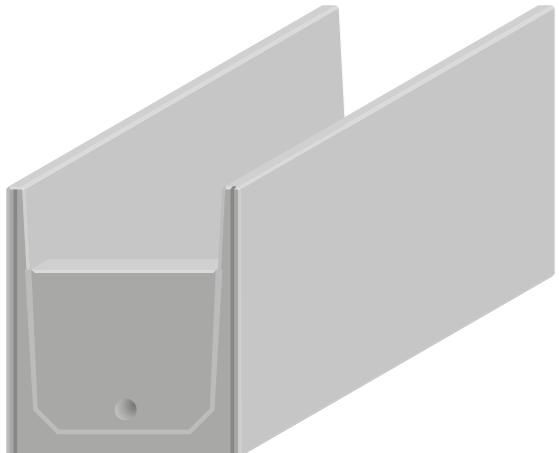

AXLE LOAD 15t

## UX(X)

## UX HEAD

The UX(X) are retaining walls that have a double load could be. To obtain a perfect load the UX(X) retaining walls must be filled 2/3 with soil, sand or gravel. The UX(X) elements can an axle load of  $\pm 10$  tons.

The UX Headpiece is supplied as standard at 2/3 height of the element.

• Corn and grass silos

✓ • Safe passage between silos

• Space to lay sandbags

• Staircase option

• Can be fitted on the inside with eye bolts

(screwed in with wedge bolt) for mounting tensioning belts

• Closing with lid possible

• Bevel option

• Flat head

• Wooden or plastic closure from bottom to top

• Hole in head piece possible for water drainage

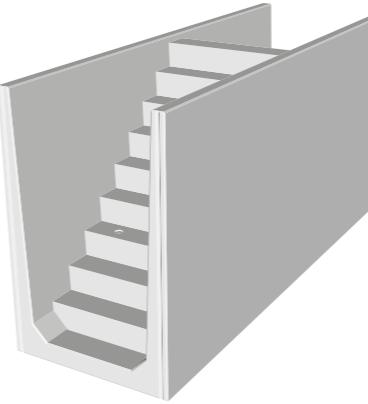

kg UX(X): Double barrier, overload 2500 kg/m<sup>2</sup>

UX(X): Available lengths: 2 and 4 meters

UX(X): Available heights: 1 to 3 meters

Other technical specifications see page 66

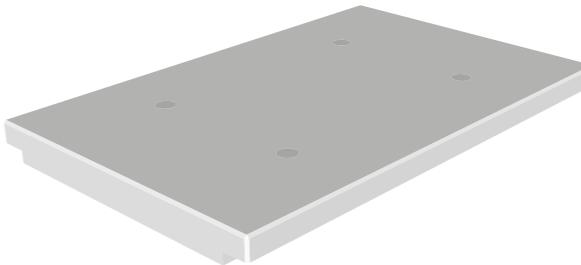

## UX STEPS

The UX(X) retaining walls have the option to be equipped with a staircase. With a 2/3rd addition of soil in the UX(X) retaining walls, these stairs ensure for easy access and walk through between the silos. These stairs are available from 3 to 14 steps and there are the possibility to provide a through hole for water drainage.

Other technical specifications see page 67

## UX LID

There are corresponding lids for the UX(X) retaining walls available. These are available in thicknesses of 14 or 20 cm. The 14 cm lid can withstand an axle load of 10 tons, the 20 cm thick cover can withstand an axle load of 15 tons.

thickness 14 cm  
10 tons axle load

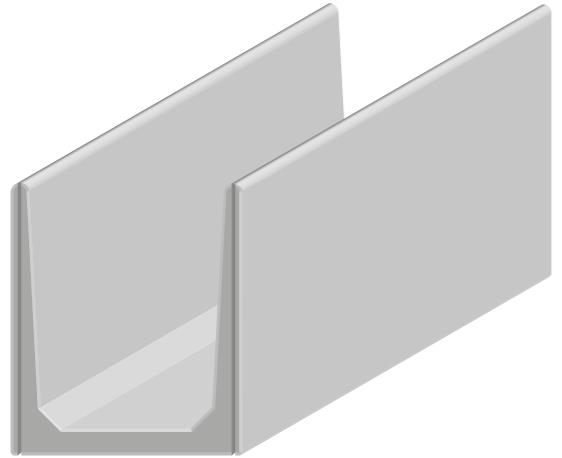

thickness 20 cm  
15 tons axle load

Other technical specifications see page 67

## VBUX(X)

## VBUX HEAD

The VBUX(X) are retaining walls that are loaded twice could be. To obtain a perfect load the VBUX(X) retaining walls must be filled 2/3 with soil, sand or gravel. The VBUX(X) retaining walls can an axle load of  $\pm 15$  tons. The VBUX Headjoint is supplied as standard at 2/3 height of the element.

- Corn and grass silos
- ✓ Safe passage between silos
  - Space to lay sandbags
  - Staircase option
  - Can be fitted on the inside with eye bolts (screwed in with wedge bolt) for mounting tensioning belts
  - Closing with lid possible
  - Round head
  - Wooden or plastic closure from bottom to top
  - Hole in head piece possible for water drainage

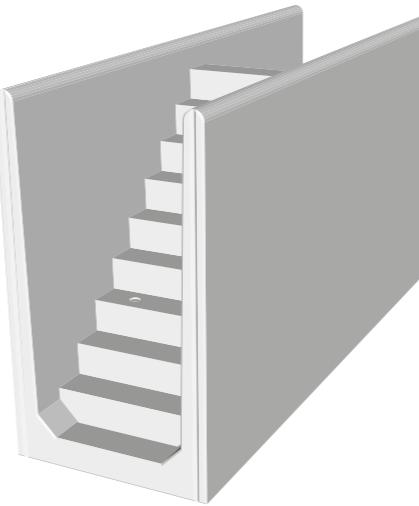

kg VBUX(X)(V): Double-turning, nuisance  $3500 \text{ kg/m}^2$

Available lengths: 2 to 4 meters  
Available heights: 2 and 3 meters

Other technical specifications see page 68

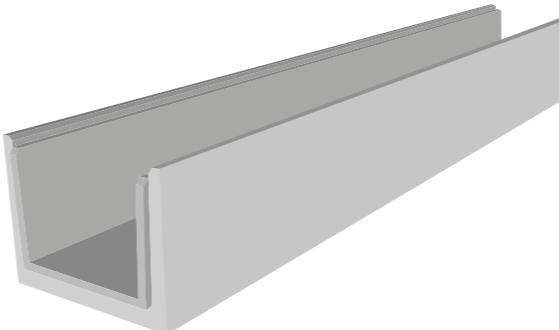

## VBUX STEPS

The VBUX(X) retaining walls have the option to be equipped with a staircase. With a 2/3rd addition of soil in the VBUX(X) retaining walls, these stairs for an easy step and walk between the silos. These stairs are available from 5 to 14 steps and there is the possibility to provide a through hole for water drainage.

Other technical specifications see page 69

## CABLE TRAY

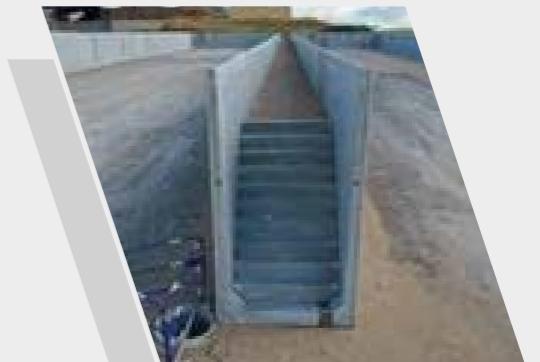

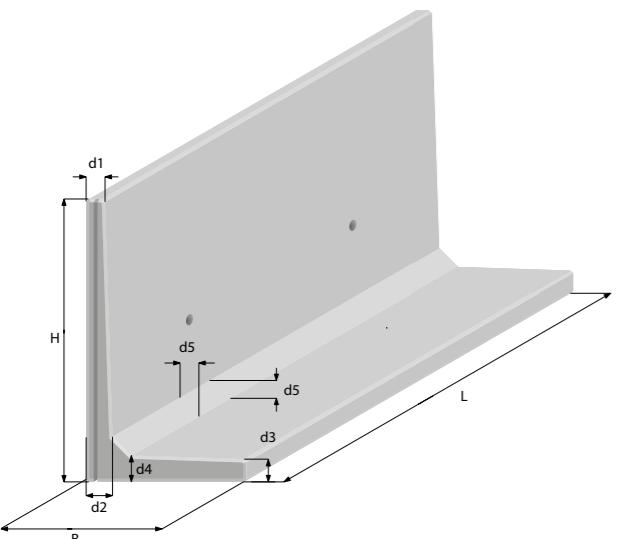

ALSTONE cable trays lend themselves, in addition to cable entry, also excellent for e.g. waters gas pipeline transit. These gutters can be optional be provided with lids for closing.

- Cable entry
- Gas pipe transit
- Drainage / transit of water
- ✓ High throughput/discharge capacity
  - Suitable for various applications

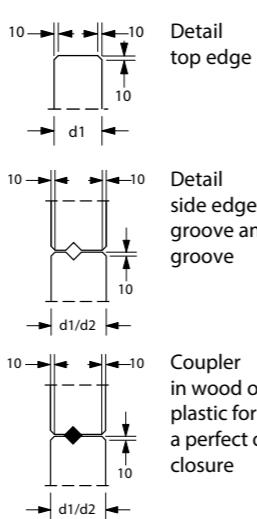

Available length: 4 meters  
Available heights: 0.45 and 0.50 meters

Other technical specifications see page 69
